

Manchester Continuum of Care June General Assembly Update Email

Hello General Assembly,

We recently had a General Assembly meeting including Mayor Craig and do not feel as though there is a need for another meeting this week so we will be cancelling the one scheduled for Thursday. Instead, we wanted to share with you some updates about the work that is happening within the community:

1. Outreach committee continues to meet to collaborate in a strategic and intentional manner to provide ongoing services to people living outside.
2. HUD announced next week the second allocations to jurisdictions and states on the second round of ESG and CDBBG funds. Manchester will be receiving 1.8M in the second round of funding. The City recently released information about how to apply for the first round of funding. Attached you will find the information sent from the city to apply for these.
3. The GOFERR announced \$35M in rental assistance funds that will be administrated by the CAPS. These funds should be available by the end of June for people to apply.
4. The GOFERR announced \$15M for support for shelters. More information on that funding is expected this week.

Thank you all for the continued work that you are doing in our community.

Stay well,

Erin Kelly
